

CONNAUGHT HALL

PARTY SOUND LEVEL CHECKS BY DSM

USING THE DECIBEL METER

- Turn the meter on
- Select Slow response (F/S button)
- Select C weighting (A/C button)
- Turn on the Max function (MAX/HOLD button)
- Point the meter in the direction of the music
- Take the reading for 10-20 seconds
- Turn the meter off
- Repeat above steps for each area (you need to turn it on & off each time to ensure accurate readings)
